Introduction

Brand Story

The name, “**Aqara**” is derived from two Latin words: “acutus” (smart) and “ara” (home). At Aqara, we’re committed to creating holistic, personalized smart home experiences that are accessible to everyone.

As a global leader and pioneer in IoT, the Company offers one of the widest selections of smart products ranging from smart sensors to switches, curtain controllers, smart cameras and smart door locks. Winner of over 300 awards, Aqara’s products are designed in-house and are equipped with cutting-edge hardware technology, sophisticated software design, and AI capabilities.

Aqara’s solutions are designed to integrate seamlessly with major third-party ecosystems like Apple Home, Amazon Alexa, Google Home and Samsung SmartThings, offering users unparalleled flexibility. Our products are especially tailored to provide the ultimate smart home experience and augment everyday life by making homes safer, more comfortable, sustainable, and adaptive to our evolving needs.

Currently, the company serves over 12 million users across five continents.

Aqara Milestones

2009

- Company founded; focused on B2B building automation

2014

- Entered Smart Home Industry

2017

- First offline Aqara store established

2020

- Sold in Apple Stores across Greater China

2019

- Opened Amazon US Store;
- Forged Strategic Partnership with LG

2018

- Released Aqara HomeKit Product Series

2021

- Aqara products available in expanded Apple Store location and Amazon stores in Europe

2022

- Present in Google I/O 2022 (GDS), Apple WWDC 22, and Samsung SDC 22 as strategic partners in Matter development

2023

- Received a prestigious low-carbon award at COP28 in Dubai for contributions to sustainable development
- Implemented Matter support for existing hubs and introduced the first Thread device with native Matter support

Doorbell Camera Hub G410

A Doorbell Camera Hub with unmatched smart home ecosystem support, and a focus on local automations.

The Doorbell Camera Hub G410 is a HomeKit Secure Video doorbell that combines improved 2K image quality, advanced presence detection, as well as Zigbee hub and Thread-enabled Matter Controller functionalities. This allows it to be connected to dozens of Aqara and third-party devices, such as door locks. Equipped with built-in mmWave radar and face recognition, it provides highly accurate alerts and automations without compromising privacy. It boasts expandable local storage for 24/7 recording and, for the first time, end-to-end encrypted video streaming directly to the Aqara Home app.

Camera G100

Durable 2K Resolution Security Camera with Day & Night Vision

The camera G100 is weather-resistant and suitable for both outdoor and indoor use. It provides a superior image quality thanks to its 2K resolution and f/1.8. It features two night vision modes: spotlight and infrared night vision with invisible backlight diodes. The camera supports microSD cards for 24/7 local recording, and can back up the recordings to an SMB NAS. The G100 supports local motion and human detection, as well as custom ringtones, that can be used in automations. And, it has one of the best third-party ecosystem support, including Apple Home, Google Home, Alexa, SmartThings and even Home Assistant via RTSP protocol.

Multi-State Sensor P100

An all-in-one, context-aware sensor that understands open/close and object states for smarter everyday automation.

Powered by high-precision nine-axis sensing, P100 delivers accurate, real-time detection across doors, windows, and everyday objects. Switch between modes to monitor open/close status or track key object events such as orientation changes, movement, drops, and vibration. When a change is detected, P100 can send alerts, trigger local alarms, or start automations, so you always know what's happening.

Hub M3

Next-generation Matter hub for Aqara and third-party devices with a focus on Edge Computing

- The Hub M3 prioritizes privacy and local automations, which can now function without the internet or even the hub itself.
- It features versatile connectivity, including dual-band Wi-Fi and PoE, as well as a 360° IR blaster that can link your AC to Matter and adjust it based on real-time room temperature from the Climate Sensor.
- As a powerful multiprotocol hub, it seamlessly integrates Aqara and, for the first time, third-party Matter devices, serving as a central point for smart home automation while ensuring privacy and easy setup.

Hub M200

Smart Zigbee & Matter hub with IR control, dual-band Wi-Fi, PoE, and Apple HomeKit support. Voice & local automation ready.

The all-in-one smart home command centre that bridges Matter, Thread, and Zigbee devices across major ecosystems like Apple Home, Google Home, Alexa, SmartThings, and Home Assistant. Featuring a 360° IR blaster, Wi-Fi 6, and Power over Ethernet (PoE), it provides flexible connectivity and universal appliance control. Powered by the Automations 2.0 engine, it executes advanced routines locally for reliable performance during internet outages, while an integrated 90dB speaker delivers instant alerts and custom audio.

Hub M100

A USB-A Zigbee & Thread Smart Home Hub

The M100 is a compact smart home hub, about the size of a USB stick, serving as the central control for home automation. It features Zigbee and Thread connectivity, functioning as both a Matter hub and controller, and a Thread border router. With its ARM Dual-Core A7 chip running at 1GHz and WiFi6 support, it efficiently handles data processing and automation. The hub easily integrates with Apple HomeKit and other third-party systems via Matter. Simply plug it into any USB-A port to manage and control your smart home devices.
